

Accessibility - Product Roadmap

Accessibility Conformance Report (ACR)

Guidebook evaluates its platform according to the Voluntary Product Accessibility Template (VPAT®). For our most recent ACR, please [click here](#).

Timeline

By the end of September 2026, Guidebook will address “Critical” items flagged in the ACR for our mobile app platform across iOS and Android.

By the end of September 2026, Guidebook will complete its audit of its web-based platform, including the Builder CMS.

By the end of December 2026, Guidebook will address “Critical” items flagged in the ACR for our web-based platform and address “Serious” items flagged for our mobile app platform across iOS and Android.

Throughout development, we will continue to update the ACR and this roadmap document.
